Designer: Stephen Akehurst

Nestled within a garden oasis, this regal three storey home stands true to its Hamptons style; light, airy and casual yet magnificently stylish. At the heart of the home are two large living rooms with high raked ceilings, leading onto stone clad terraces with intricate columns and rafters, overlooking the pool and gardens. A kitchen, dining room, laundry study and master bedroom complete the ground floor. The first floor contains three bedrooms, three bathrooms and a playroom. Tying the floors together is a winding timber staircase.
